Notice to Farmers!

At a meeting of the grain merchants and millers of Maysville, held on June 24th, 1862, the subject of cleaning wheat by farmers was introduced and fully discussed, and the following preamble and resolution was adopted:

That whereas, in former years, owing to the superior quality and cleanliness of Mason county wheat, it enjoyed a reputation second to no other section of the country and was much sought after, but in recent years, owing to the imperfect cleaning of wheat by threshers, it has suffered very materially in grading in the general markets in comparison with wheat from other states, resulting in no inconsiderable loss to the handlers, and many of the former large wheat customers who bought wheat here have in consequence been diverted to other markets; therefore, be it Resolved, That the grain dealers and millers of this city feel that it is incumbent upon them to make it known to the farmers that they must insist upon them having their wheat well cleaned and screened by threshers, otherwise prices will be made accordingly. They desire to state, for the benefit of the farmers, that wheat to grade No. 2 must weigh at least 58% pounds to the bushel, They desire to state, for the benefit of the farmers, that wheat to grade No. 2 must weigh at least 58% pounds to the bushel, thoroughly clean and dry, free from smut and other impurities; and that wheat to grade No. 3 must weigh at least 56 pounds to the bushel, and be dry and reasonably clean, and may have an occasional smut ball, but free from stain. Wheat not up to the above grades will be classed as rejected.
